5TH ANNUAL

PEDIATRIC RHEUMATOLOGY: AN UPDATE FOR CLINICIANS

**Wednesday, March 19, 2014
New York, NY**

REGISTER ONLINE AT: [HTTP://CME.MED.NYU.EDU/PEDRHEUM](http://CME.MED.NYU.EDU/PEDRHEUM)

Course Description/Statement of Need

Pediatric Rheumatology is one of the newest and smallest pediatric subspecialties. There are fewer than 250 pediatric rheumatologists in the United States, with several states lacking even a single pediatric rheumatologist. Many general pediatricians and adult rheumatologists must, therefore, have sufficient training to diagnose children with rheumatic disease. Promoting increased awareness is essential for treating rheumatic disease earlier in order to minimize damage and improve patient outcomes. This unique course will focus on closing the gap between clinical experience and practice through expert lectures and will include a panel discussion and question and answer portion. The program will include a ½-day conference followed by an expert panel. The intended audience includes general pediatricians, pediatric subspecialists, adult rheumatologists, as well as trainees including house staff, fellows and medical students. There is no other course like this being offered in New York State, and few, if any, in the country. It has been well attended in the past, with over 190 attendees. This year's program includes new topics given by world-renowned experts.

Target Audience

General pediatricians, pediatric subspecialists, pediatric rheumatologists, adult rheumatologists and trainees (including medical students, residents and fellows) are the target audience.

Educational Objectives

At the conclusion of this activity, participants should be able to:

- Recognize certain rheumatic diseases in children such as PFAPA or scleroderma to ensure early referral to specialty care.
- Assess and evaluate the young child with limp or musculoskeletal pain from the perspective of a pediatric orthopedist, with an emphasis on history and physical examination, as well as appropriate imaging when applicable.
- Describe subsets of localized scleroderma and be more aware of the utility of ultrasound to detect and follow disease.
- Describe the various neuropsychiatric manifestations of lupus in children, as well as more recent updates pertaining to potential pathogenic mechanisms and novel therapeutic targets.
- Recognize PFAPA in children with recurrent fever.
- Define the high-risk alleles for JIA, as well as how the genetics of the HLA actually modulates the disease in certain patients.

Accreditation Statement

The NYU Post-Graduate Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation Statement

The NYU Post-Graduate Medical School designates this live activity for a maximum of 3.50 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Statement

The NYU Post-Graduate Medical School adheres to ACCME Essential Areas and policies, including the Standards for Commercial Support regarding industry support of continuing medical education. In order to resolve any identified Conflicts of Interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships as well as the discussion of unlabeled or unapproved use of any drug, device or procedure by the faculty will be fully noted at the meeting.

Location

NYU Langone Medical Center
Farkas Auditorium, Alumni Hall
550 First Avenue (31st St.), New York, NY 10016

Mailing Address & Contact Information

Registration Office, NYU Post-Graduate Medical School
545 First Avenue, Suite 5-S, New York, NY 10016
Phone: (212) 263-5295 • Fax: (212) 263-5293

Planning Committee

Steven B. Abramson, MD
Catherine S. Manno, MD
Ranit Shriky

Course Director

Philip J. Kahn, MD
Assistant Professor of Pediatrics
NYU School of Medicine, New York, NY

Faculty

David S. Feldman, MD
Professor of Orthopaedic Surgery and Pediatrics
NYU School of Medicine, New York, NY

Deborah M. Levy, MD, MS
Assistant Professor of Pediatrics
Hospital for Sick Children
University of Toronto, Toronto, Canada

Suzanne C. Li, MD, PhD
Assistant Professor of Pediatrics
Rutgers-New Jersey Medical School, Newark, NJ

Sampath Prahallad, MD, MSc
Marcus Professor and Chief, Pediatric Rheumatology
Associate Professor of Pediatrics and Human Genetics
Emory University School of Medicine, Atlanta, GA

Program

1:00pm	Registration	3:25	Coffee Break
1:30	Welcome & Introduction Philip J. Kahn, MD	3:45	Localized Scleroderma in Childhood Suzanne C. Li, MD, PhD
1:40	The Genetics of Juvenile Arthritis Sampath Prahalad, MD, MSc	4:20	The Limping Child: An Orthopedist's Perspective David S. Feldman, MD
2:15	Neurocognitive Impairment in Children with Lupus Deborah M. Levy, MD, MS	4:55	Panel Discussion/ Question & Answer Session
2:50	PFAPA: A Fever Syndrome You Have Probably Seen Philip J. Kahn, MD	5:30pm	Adjourn

Registration Form

5th Annual Pediatric Rheumatology: An Update For Clinicians

March 19, 2014 • Register online at <http://cme.med.nyu.edu/pedrheum>

After 12pm on March 17th, 2014, only onsite registration is available provided the course has not reached capacity. Onsite registrants will incur an additional \$10 charge and will receive a receipt by email in 1-2 weeks.

PLEASE PRINT INFORMATION CLEARLY IN BLOCK LETTERS AND NUMBERS
