Associate Professor of Orthopaedics Chief - Division of Sports Medicine Tel: (212) 598-6784

Rehabilitation Protocol: Posterior Cruciate Ligament (PCL) Reconstruction with Achilles Allograft

Name:	Date:
Diagnosis:	Date of Surgery:
recons • Hinge • Range ANTE	Teeks 0-4) Intbearing: As tolerated with crutches (may be modified if concomitant posterolateral corner struction, meniscal repair/meniscal transplant or articular cartilage procedure is performed) and Knee Brace: Locked in full extension for ambulation and sleeping (Weeks 0-1) Locked in full extension for ambulation – removed for therapy sessions (Weeks 1-4) of Motion – Weeks 0-1: None, Weeks 1-2: PROM 0-30°, Weeks 2-4: PROM 0-90° (MAINTAIN RIOR PRESSURE ON PROXIMAL TIBIA AS KNEE IS FLEXED FROM WEEK 1-4—NEED TO PREVENT ERIOR SAGGING AT ALL TIMES) INDEDEDDDD STREET ON PROXIMAL TIMES (Meeting 1) Straight-Leg Raise with brace in full extension until quad strength prevents extension lag Hip abduction/adduction (RESISTANCE MUST BE PROXIMAL TO THE KNEE) Hamstring/Calf stretch – Calf press with theraband progressing to standing toe raises with knee in full extension
 Weigh Hinge activit Range Thera 	Meeks 4-12) Inthearing: As tolerated with crutches discontinue crutch use at 6-8 weeks post-op Inthearing: As tolerated with crutches discontinue crutch use at 6-8 weeks post-op Inthe Brace: Weeks 4-6: unlocked for gait training/exercise only, Weeks 6-8: unlocked for all cies, Discontinue brace at 8 weeks post-op Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension, Weeks 4-8: Gait training, wall slides (0-30°), Mini-squats (0-30°), Leg press (0-60°) Interest of Motion-Maintain full knee extension, wall slides (0-30°), Mini-squats (0-30°), Leg press (0-60°) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6) Interest of Motion-Maintain full knee extension-work on progressive knee flexion (Goal of 110° by week 6)
WeightRangeThera	(Weeks 12-9 months) Intbearing: Full weightbearing with normalized gait pattern of Motion – Full/Painless ROM Inpeutic Exercises Advance closed chain strengthening exercises, progress with proprioception/balance activities Maintain flexibility Begin treadmill walking – progress to jogging
0 0	(9 months and beyond) Maintain strength, endurance and function – initiate plyometric program Begin cutting exercises and sport-specific drills Return to sports as tolerated AVOID ACTIVE HAMSTRING ACTIVITY AND ACTIVE KNEE EXTENSION FROM 90-70° UNTIL
POST-OP WE
